Policy

## Environmental Policy

Datagraphic Ltd is committed to minimise waste and pollution to reduce long term costs with the following commitments and objectives to:

- Minimise disturbance to the local environment and to the quality of life of the local communities;
- comply with all relevant statutory regulation;
- maintain appearances and highest environmental standards with the company premise;
- assess, in advance if possible, environmental effects of new processes and developments;
- provide necessary information to enable proper use, storage and disposal of Company products to avoid harm to the environment;
- provide necessary information to enable employees to operate processes properly and minimise effects on man and the environment;
- develop, maintain and continually improve comprehensive environmental management system;
- regularly review environmental performance at Board level;
- develop and maintain contingency plans where significant environmental hazards exist.

## Sustainability and Recyclability

Where possible, renewable materials are sourced at all levels of the organisation and waste materials from the processes are recycled.

Suppliers and customers are encouraged to choose materials that are renewable and/or recyclable and to minimise the need for landfill taking the Carbon Dioxide footprint into account.

Continuous work is carried out to develop and implement solutions towards sustainability and to reduce emissions.

## Banned Substances

Datagraphic assures against the inclusion of hazardous chemical substances in its products as defined by legal and/or specific customers requirements. This assurance is maintained by mutual cooperation with suppliers and sub-contractors.

## Environmental Policy Awareness

This policy shall be available to all persons working for, or on behalf, of Datagraphic via the company's Standard Operating Procedures manual.

### Why Datagraphic?

As a leading Strategic Document Outsourcing (SDO) company, Enterprises work with us to successfully deliver minute-critical documents online and in print.

From our secure ISO27001 UK production and technology centre, we print and mail millions of documents each year and develop software to transform data in to responsive online customer, employee and stakeholder communications.
